ZONING DISTRICTS AND MAPPING INTERPRETATION

Section 3.01. DISTRICTS. The Township of Franklin is hereby divided into zones or districts as shown on the Official Zoning Map and shall include the following:

AG;	Agriculture
SE;	Suburban Estate
R-1;	Single-Family Residential
RM;	Multiple Family Residential
RMH;	Mobile Home Park Residential
C-1;	General Commercial
CR;	Commercial Recreation
M-1;	Industrial

Section 3.02. MAP. The boundaries of these districts are shown upon the Official Zoning Map of the Township of Franklin and made a part of this Ordinance. The Zoning Map shall be maintained and kept on file with the Township Clerk, and all notations, references, and other information shown thereon are a part of this Ordinance and have the same force and effect as if the said Zoning Map and all such notations, references and other information shown thereon were fully set forth or described herein.

Section 3.03. INTERPRETATION OF DISTRICT BOUNDARIES. Where uncertainty exists with respect to the boundaries of the various districts as shown on the zoning Map the following rules shall apply:

1. Boundaries indicated as approximately following the center lines of streets, highways, or alleys shall be construed to following such center lines.
2. Boundaries indicated as approximately following platted lot lines shall be construed as following such lot lines.
3. Boundaries indicated as approximately following corporate limits shall be construed as following corporate limits.

However, notwithstanding, a use mentioned or permitted in another zoning district may be permitted under this section, after hearing, recommendation and approval, if it is of a less intense nature and otherwise compatible with the zoning district for which it is proposed.

ARTICLE IV

NON-CONFORMING LOTS, NON-CONFORMING USES OF LAND, NON-CONFORMING STRUCTURES AND NON-CONFORMING USES OF STRUCTURES AND PREMISES

Within the districts established by this Ordinance, should there exist lots, structures and uses of land and structure which were lawful prior to adoption of this Ordinance but were made unlawful by regulations imposed by this Ordinance, they shall be termed non-conformities. It is the intent of this Ordinance to permit these non-conformities to continue until they are removed, but not to encourage their survival. It is further the intent of this Ordinance to permit no enlargement or extension of non-conforming uses, including the addition of other structures or uses prohibited elsewhere in the same district.

Section 5.01. **NON-CONFORMING LOTS OF RECORD (SUBSTANDARD LOTS).** In any district in which single-family dwellings are permitted, notwithstanding limitations imposed by other provisions of this Ordinance, a single-family dwelling and customary accessory building may be erected on any single lot of record at the effective date of adoption or amendment of this Ordinance. This provision shall apply even though such lot fails to meet the requirements for area or width, or both, that are generally applicable in the district; provided that yard dimensions and other requirements not involving area or width or both, of the lot shall conform to the regulations for the district in which such lot is located. Yard requirement variances may be obtained through approval of the Zoning Board of Appeals.

If two (2) or more lots or combinations of lots and portions of lots with continuous frontage in single ownership area of record at the time of passage or amendment of this resolution, and if all or part of the lots do not meet the requirements for lot width and area as established by this resolution, the lands involved shall be considered to be an undivided parcel for the purposes of this resolution, and no portion of said parcel shall be used or occupied which does not meet lot width and area requirements established by this resolution, nor shall any division of the parcel be made which leaves remaining any lot with width or area below the requirements stated in this resolution.

Section 5.02. **NON-CONFORMING STRUCTURES.** Where a lawful structure exists at the effective date of adoption of this Ordinance that could not be built under the terms of this Ordinance by reason of restrictions on area, lot coverage, height, yards, its location on the lot, or other requirements concerning the structure, such structure may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No such non-conforming structure may be enlarged or altered in a way which increases its non-conformity, unless otherwise specified by the Zoning Board of Appeals.

2. Should such non-conforming structure or non-conforming portion of structure be destroyed by any means to an extent of more than one hundred (100) percent of State Equalized Valuation, the time of destruction, which shall not be reconstructed except in conformity with the provisions of this Ordinance.
3. Should such structure be moved for any reason whatever, it shall hereafter conform to the regulations of the district in which it is located after it is moved.

Section 5.03. NON-CONFORMING USES OF LAND. Where at the time of passage of this Ordinance a lawful use of land exists which would not be permitted by the regulations imposed by this Ordinance, and where such use involves no individual structure with a State Equalized Valuation exceeding five hundred (\$500) dollars, the use may be continued so long as it remains otherwise lawful provided:

1. No such non-conforming use shall be enlarged or increased, nor extended to occupy a greater area of land than was occupied at the effective date of adoption or amendment of this Ordinance.
2. No such non-conforming use shall be moved in whole or in part to any portion of the lot or parcel other than that occupied by such use at the effective date of adoption or amendment of this Ordinance.
3. If any such non-conforming use of land ceases for any reason for a period of more than six (6) consecutive months, any subsequent use of such land shall conform to the regulations specified by this Ordinance for the district in which such land is located.
4. Only those additional structures which are in conformance to the requirements of this Ordinance shall be erected in connection with such non-conforming use of land.

Section 5.04. NON-CONFORMING USES OF STRUCTURES. If lawful use involving individual structures or of structure and premises in combination with a State Equalized Valuation of five hundred (\$500) dollars or more exists at the effective date of adoption of this Ordinance, that would not be allowed in the district under the terms of this Ordinance, the lawful use may be continued so long as it remains otherwise lawful, subject to the following provisions:

1. No existing structure devoted to a use not permitted by this Ordinance in the district in which it is located shall be enlarged, extended, constructed, reconstructed, moved, or structurally altered except in changing the use of the structure to a use permitted in the district in which it is located.

2. Any non-conforming use may be extended throughout any parts of a building which were manifestly arranged or designed for such use at the time of adoption or amendment of this Ordinance, but no such use shall be extended to occupy any land outside such building.
3. If no structural alterations are made, any non-conforming use of a structure, or structure and premises, may be changed to another non-conforming use provided that approval is secured from the Zoning Board of Appeals and that the proposed use is equally appropriate to the district than the existing non-conforming use. Whenever a non-conforming use has been changed to a conforming use, or to a use permitted in a district of greater restriction, it shall not thereafter be changed to a non-conforming use.
4. When a non-conforming use of a structure, or structure and premises in combination, is discontinued or abandoned for six (6) consecutive months or for eighteen (18) months during any three-year (3) period, the structure, or structure and premises in combination, shall not thereafter be used except in conformity with the regulations of the district in which it is located.
5. Where non-conforming use status applies to a structure and premises in combination, removal or destruction of the structure shall eliminate the non-conforming status of the land. Destruction for the purpose of this section is defined as damaged to an extent of more than one hundred (100) percent of State Equalized Valuation at time of destruction.

Section 5.05. REPAIRS AND MAINTENANCE. On any non-conforming structure or portion of a structure containing a non-conforming use, work may be done on ordinary repairs, or on repair or replacement of non-bearing walls, fixtures, wiring, or plumbing to an extent not exceeding twenty (20) percent of the current State.

Equalized Valuation of the non-conforming structure or non-conforming portion of the structure as the case may be, provided that the cubic content existing when it became non-conforming shall not be increased.

If a non-conforming structure or portion of a structure containing a non-conforming use becomes physically unsafe or unlawful due to a lack of repairs and maintenance, and is declared by the Building Inspector to be unsafe or unlawful by reason of physical condition, it shall not thereafter be restored, repaired, or rebuilt except in conformity with the regulation of the district in which it is located.

Nothing in this Ordinance shall be deemed to prevent the strengthening or restoring to a safe condition of any building or part thereof declared to be unsafe by the Building Inspector.

Section 5.06. NON-CONFORMING USE - BUILDING DAMAGED BY FIRE, ETC. Any non-conforming use or non-conforming building which has been destroyed by fire, explosion, Act of God, or by public enemy to the extent of one hundred (100) percent of its State Equalized Valuation, exclusive of the foundation at the time such damage occurred, shall thereafter be made to conform with the provisions of this Ordinance. Where such destruction or damage has occurred, removal of the non-conforming use of a building also shall eliminate the non-conforming use status of the land on which said building is located. If such damage is less than one hundred (100) percent of its State Equalized Valuation before said damage occurred, exclusive of the foundation, then such structure may be restored to the same non-conforming use or non-conforming building as existed before such damage, provided that such restoration shall be subject to the approval of the Zoning Board of Appeals. Said restoration shall be commenced within one (1) year of the date of such partial destruction and shall be diligently carried on to completion.

Section 5.07. CHANGE OF TENANCY OR OWNERSHIP. There may be change in tenancy, ownership or management of an existing non-conforming use, provided there is no change in the nature of character of such non-conforming use.

Section 9.05. LAKE DISTRICT OVERLAY ZONE.

In the growth and development of Franklin Township certain neighborhoods/residential districts have evolved, especially around Evans Lake and Sand Lake, from subdivisions that were platted in the early decades of the twentieth century and occupied by seasonal housing units, which have been, and are being converted into year round residences. Initially these areas were subdivided into lots, which tend to be significantly smaller than the standard established by the Franklin Township Zoning Ordinance. Dwellings and accessory buildings have been constructed on them, which do not conform to minimum yard and spacing requirements.

The Township recognizes the special nature of certain neighborhoods/residential districts and wishes to preserve their unique characteristics through special regulations. It is the intent of this section to

allow greater flexibility in site standards, such as minimum yards and related requirements in these specific areas as described herein, to promote the improvement, renovation or reconstruction of dwellings and accessory structures in a manner that conforms to the character of the existing development in the area and to continue the prevailing setbacks in such neighborhoods/residential districts while protecting public health safety and general welfare.

These neighborhoods/residential districts are hereby declared to be a Lake District Overlay Zone. The Lake District Overlay Zone appears on the Zoning Map as an "Overlay District" imposed on top of the other base (or underlying) zoning districts created by the Zoning Ordinance. Development of properties in the Lake District Overlay Zone must comply with all of the regulations of the base district in which they are located except as specifically set forth or excepted in this section. When there is any conflict between the regulations of the Lake District Overlay Zone and the regulations of the base district the conflict shall be reconciled by the zoning enforcement officer in conference with the planning commission and all rights of appeal provided by the Zoning Ordinance shall be preserved.

Permitted and special uses allowed in the Lake District Overlay Zone shall be consistent with those authorized by the regulations of the base zoning district, subject to the limitations placed thereon by this Section.

1. The standards of the Lake District Overlay Zone shall be applied only to structures located or proposed to be located on those parcels within the following plats.
 - A. Evans Lake:
 1. Plat of F.W. Lemm's Subdivision
 2. Supervisor's Plat #2
 3. Plat of Evans Lake Park Subdivision Area #1 and Area #2
 - B. Sand Lake:
 1. Plat of Kennedy Subdivision
 2. Supervisor's Plat #1
 3. Plat of R. J. Law's North Shore Subdivision
 4. Plat of Ardendale Subdivision (except lots I through 13)
2. Front yard setback:
 - A. Minimum required front yards (or back yards of those lots where the front yard is defined as facing the lake) when adjacent to a street or road, may be reduced to the average established yard of all developed adjacent parcels in the subject plat within three hundred feet (300') on each side of the subject property or the three nearest residences on each side the subject property, whichever is less, provided that the reduction will not create a traffic safety hazard or encroach on any easement or right of way.

- B. Parcels used in the setback averaging shall include only those in the same plat as defined in subsection 1 above.
 - C. At no time shall the structure be located less than twenty feet (20') from the traveled portion of the adjacent road or street and at no time shall the structure be located closer than 50' from the high water mark of the lake.
3. Rear yard setback: Rear yard setbacks shall be a minimum of thirty-five feet (35') except for lots that front on the lake where paragraph 2. A. above shall apply for the rear yard facing the street.
 4. Side yard setbacks: The minimum required side yards may be reduced to a dimension equal to 10% of the lot width provided the resulting structure is no less than 5 feet(5') from the adjacent property line and no less than ten (10') from the dwelling on the adjacent lot.
 5. Decks, porches or other projections from the main structure shall be considered a part of the main structure and subject to the same setbacks as the structure except that eaves and overhangs may extend not more that twelve () 2) inches into the setback.
 6. The remainder of the area, height and bulk regulations shall be as specified in the Schedule of Regulations, Section 16.0 J. R-) Single-Family Residential.
 7. The application of these special standards shall be reviewed and approved by the Township Zoning Administrator and /01' Building Inspector prior to issuance of a building permit.
 - A. Given the density of the lots in these plats; to adjacent neighbors; to the lake edge; to road right-of-ways; and possible encroachments on adjacent property lines and right-of-ways, as a requirement for evaluation for a building permit, the property owner may be required, by the Zoning Administrator and/or Building Inspector, to provide a site plan and /or detailed survey of the property including the dimensions of the proposed improvements.
 - B. A detailed survey and site plan is a requirement for any submission of these standards to the Board of Appeals for a variance request.
 - C. This survey and site plan shall be prepared by a registered surveyor and shall include at a minimum the following items:
 1. Show on plan and locate in the field all property lines, corners, easements, uses, road right-or-ways and high water mark including

dimensions and angles correlated with the legal description of the property.

2. Locate and dimension all existing and proposed main structures and accessory structures on the site and the facing sides of existing structures on adjacent lots. Indicate the distance from the property lines of all these structures.
 3. Locate all drives patios, walks and other paved areas.
 4. Locate all poles, manholes and other utility services.
 5. Any additional information, including grades, as determined by the Township Building Inspector as required due to the complexity of the proposed improvements.
8. Where two or more adjacent lots within a lake district overlay zone are under single ownership, as a condition to issuance of a building permit, these properties shall be permanently conjoined and enjoined by a building and use restriction, acceptable to the Township that prevents future dividing of the property consistent with the requirements of Article V, Section 5.01 of the Franklin Township Zoning Ordinance and the following additional standards.
- A. Should the resulting lot be 80' wide or greater the side setbacks shall be as specified in the Schedule of Regulations for R-I Single – Family Residential.
 - B. Should the resulting lot be 120' long or greater the front and rear yard setbacks shall be as specified in the Schedule of Regulations for R-I Single-Family Residential.

OPEN SPACE COMMUNITIES

Section 17.01. STATEMENT OF INTENT. The purpose of this Section of the Zoning Ordinance is to allow and encourage alternative subdivision designs which preserve Franklin Township's character and environmentally sensitive elements, while providing housing communities that are desired by the community and the general public.

Open Space Communities shall promote the following objectives:

1. Maintain the rural character of the Township.
2. Maintain an image of open space within the Township.
3. Preserve open space within the Township.
4. Preserve natural resources within the Township.
5. Preserve agriculture and farming within the Township.
6. Achieve a balance between farming, open space and residential growth within the Township.

Section 17.02. SITE CRITERIA.

1. Location Of Open Space Communities.

An open space community may be located as a conditional use in Residential (R-1), Suburban Estates (SE), and Agricultural (AG) zoning districts.

2. Access.

The open space community shall have direct access to an approved public or private roadway.

3. Open Space Criteria.

- a. In all open space communities, at least one (1) of the following items must be present.

1. Preservation of Natural Amenities - Sites preserving a significant quantity of any of the following:

- a. Organic Amenities: Significant views and vistas, mature woodlands, wetlands or lowland areas, prairie, bodies of open water (such as ponds, streams, natural drainage ways),

wildlife habitat or corridors, and significant size trees (six to eight inches or more, measured five feet above the grade).

- b. **Nonorganic Amenities:** Farmhouses (viable for restoration and/or preservation), fence lines (stone or wood), buildings or foundations of historical value.
2. **Provisions for Recreational Facilities** - The submittal should include both passive and active recreation areas for residents within the open space community. Passive recreation areas shall include areas such as pathway systems, common green areas of a substantial size, and open/preserves natural amenity areas, or other areas or uses consistent in nature. Active recreation areas shall include areas such as children play sets, sports fields (i.e., football, soccer, baseball), and other fitness areas that are consistent in nature.
3. **Creation of Natural Amenities** - These areas are to be constructed in a manner that replicates a natural setting. A percentage of these areas should remain “unmanicured,” allowing natural growth and processes to occur. These areas can take a number of forms, such as woodlands (interior street tree plantings shall not count for this requirement), wildflower or grass meadows, constructed wetlands (preferably extension to an existing), or other areas consistent in nature.
4. **Preservation of Agriculture** - Land uses, such as orchards, horse stables, active farms, or other similar agriculture uses, shall be preserved, where feasible or viable. In no way shall an intensive animal raising, slaughter house, or similar use be allowed within an open space community. A buffer shall be maintained between the agricultural use and the residential units.
 - b. All of the above-mentioned areas shall be accessible or open to all residents within the open space community, with the exception of farmland.
 - c. Under the open space community provision, the net density shall be no greater than that normally permitted within that zoning district. The maximum density shall be the maximum number of lots permitted by the approved parallel plan. Density does not guarantee any specific number of lots from any individual parcel or group of parcels. Rather, density refers to the number of lots which can be platted on the subject parcel.

Section 17.03. SUBMISSION REQUIREMENTS.

1. Parallel Plan.

A “parallel” or “yield plan” shall be prepared by the developer showing a feasible development under the requirements of the specific zoning district in which it is located and the requirements of any and all State, County and Township subdivision regulations. All lots, roads and other improvements shall be designed so that they do not adversely impact wetlands, floodplains or drainage ways, as regulated by Federal, State, County or local agencies.

A demonstration must be made to the Planning Commission that this parallel plan or conventional subdivision is able to be physically constructed and meet all current subdivisions regulations, should the Open Space Community be denied or not constructed. If there is a question regarding water, septic, wetlands or floodplains, the Planning Commission may request validation from the proper regulatory authority. If it is determined, through these responses, that the number of lots proposed is unfeasible, the yield plan shall be revised and resubmitted, minus that number of lots. Detailed engineering is not required at this stage.

The Planning Commission may also waive the submission of a yield plan if it is determined that the number of housing units proposed for open space development is, without question, well below what would be feasible for the site. Such waivers must be detailed in writing and recorded as part of the motion in the minutes of the Planning Commission. Waivers may only be granted if it is determined by the Planning Commission that the proposed open space design will be a major benefit to the Township and achieve all the goals and objectives set forth in the Franklin Township Land Use Plan and Zoning Ordinance.

2. Site Analysis.

A site Analysis Plan shall be submitted, showing the following site features:

- a. Wetlands, as determined by the Michigan Department of Environmental Quality
- b. Water areas, such as streams and ponds
- c. Woodlands and farmlands
- d. Soils and topography
- e. Drainage patterns and County drains
- f. Historic and cultural features
- g. Wildlife habitat corridors
- h. View sheds and view corridors

- i. Existing easements of record
 - j. Existing and proposed rights-of-way
 - k. Existing infrastructure
 - l. Adjacent development within two hundred (200) feet
3. Conservation Areas Plan.

The combination of the site analysis elements noted above shall be used to outline the primary and secondary conservation areas. The primary conservation areas include areas where no development is to occur. The secondary conservation areas are areas where development can occur, but special care must be taken to minimize adverse impacts.

- a. Primary Conservation Areas - floodplains, regulated wetlands, drainage ways, easements, 150 - foot exterior road buffer, or other exceptional elements.
 - b. Secondary Conservation Areas - farmlands, woodlands, suspected or marginal wetlands, tree lines, soils sensitive to development, soils prone to flooding, aesthetic views, etc.
 - c. Buildable Areas - areas that are not dedicated to primary conservation areas may be treated as buildable areas. Housing sites should be located so as to complement the conservation areas.
4. Open Space Plan.

An Open Space Plan, with the proposed housing layout shall not exceed the maximum number of housing units determined by the parallel/yield plan. The roads shall also be shown to provide interior access to all homes. At this stage, the drawings need not be engineered, only drawn to scale.

Section 17.04. REVIEW PROCESS.

1. The Planning Commission shall determine that the yield plan submitted meets all applicable regulations of the Land Division Act unless waived per Section 17.03.
2. The Planning Commission shall confirm the accuracy and feasibility of the open space plan noted above and determine that all provisions of Article XVII of this ordinance are met.
3. Planning Commission Determination.

- a. Upon approval, the proprietor may undertake the process for Subdivision or Site Condominium approval, or Parcel Division per State Law and Township Ordinance.
- b. Upon denial, the proprietor may either submit the yield plan or parallel plan for approval under the Subdivision or Site Condominium review process, or submit a new application for an open space community.

Section 17.05. SITE DESIGN REQUIREMENTS.

1. Unless otherwise provided for this Ordinance, all other applicable Zoning Ordinance provisions shall apply.
2. Minimum Lot Size - Lot sizes shall be determined by the State and County Health Departments regulations or standards. In no case shall any lot be less than 15,000 square feet when central sewer are not available, or less than 7,500 square feet when central sewer facilities are available.
3. Minimum Yard Setbacks - The following minimum yard setbacks shall apply to open space developments: Front - 50', Side - 15', Rear - 40'.
4. Minimum Exterior Road Buffer - In order to buffer the development from the surrounding area and to preserve rural atmosphere, a perimeter greenbelt may be required as a condition of site plan approval.
5. Minimum Open Space - A minimum of fifty percent (50%) of the gross land area shall be set aside for common open spaces uses.

Open Space shall be defined as follows: All areas within the open space development, not individually owned or part of a limited common area, which are designed and intended to preserve environmental features for the common use and enjoyable of the residents of the entire development for any of the following uses: recreation, forestry and/or open space conservation, community gardens, or agricultural uses. The open space requirements shall not be met by land uses such as golf courses or other exclusionary commercial recreational uses, lot area within setbacks for each specific lot, or land area dedicated as limited commons.

6. Access to Open Space - Access points or paths shall be provided to afford access to open space and common areas. These access points shall link the open space to the roadway, sidewalks, or the remainder of the development.
7. General Lot Character - Flag lots or panhandle lots shall not be permitted within an open space community.

8. Natural Area - An undisturbed greenbelt shall be required around any natural features or farmland preserved within the common open space areas.

Section 17.06. ROADS. Roads may be public or private. Private roads must comply with the requirements of Section 4.27 of this ordinance.

Section 17.07. DEDICATION OF OPEN SPACE.

1. The dedicated open space shall be set aside in an irrevocable conveyance that is acceptable to the Township Attorney and approved by the Township Board, such as the following.
 - a. A Conservation Easement, as established by the State of Michigan Conservation and Historic Preservation act, Public act 197 of 1980, as amended (M.C.L.399.251).
 - b. Master Deed, as established by the State of Michigan Condominium Act, Act 59 Public Act of 1978, as amended.
 - c. Distributed, gift or sale of the development rights to all property owners within the Open Space Community.
2. The conveyance shall indicate all proposed uses of the dedicated open space, which shall also be shown on the approved open space or farmland community. The Township Attorney shall review the conveyance and assure the Township that such lands shall remain as open space for perpetuity. The conveyance shall also detail a maintenance schedule and funding for operation, maintenance and insurances for all common areas, facilities, projects and programs of the Open Space Community, and shall include methods of payment and collection.

Section 17.08. SUBDIVISION PLAT, SITE CONDOMINIUMS, OR LOT DIVISIONS. After, or in conjunction with, the Open space or farmland Community Approval noted in the previous sections, the petitioner must follow the regulations and procedures set forth in the Franklin Township Subdivision Regulations, Site Condominiums Ordinance or Lot Division Ordinance, and all applicable engineering standards of the Franklin Township Land Development and Engineering Standards Ordinance.

 4. That the requested variance is the minimum variance necessary to do substantial justice to the applicant as well as to other property owners in the district.
 5. That the requested variance will not cause an adverse impact on surrounding property, property values, or the use and enjoyment of property in the neighborhood or zoning district.
- b. For Use Variances: Under no circumstances shall the Zoning Board of Appeals grant a variance to allow a use not permissible under the terms of this Ordinance in the district involved, or any use expressly or by implication prohibited by the terms of this Ordinance in said district.
