INTRODUCTION

The Michigan Department of Transportation (MDOT) recognizes the importance of the state-local partnership in delivering a safe and efficient transportation system. The Regional Transportation Planning Program (RTPP) was created by the MDOT Bureau of Transportation Planning (BTP) in 1974 to contract various planning services to be performed by the State Planning and Development Regions, also known as Regional Planning Agencies (RPAs), to assist BTP and local units of government. Each RPA could potentially have up to four project authorizations as a result of what is approved under this work program.

The RTPP requires each participating regional planning agency (except Southeast Michigan Council of Governments) have an annual work program in accordance with a three-year Master Agreement. Since 1984, the State Legislature has set a line-item budget of \$488,800 of Act 51's Michigan Trunk line Fund (MTF) for the RTPP. Identified transportation planning services funding with MTF includes the following work elements to assist MDOT and local communities: Program Management, Technical Assistance to MDOT, Technical Assistance to Member Agencies, Public Involvement and Consultation Process for Non-Metropolitan Areas, Access Management, specific eligible activities with the Pure Michigan Byway Program, Non-motorized Mapping and Investment Plan, Rural Safety Planning, and Asset Management. Each regional planning agency may divide and prioritize their allocation of these work elements based on the transportation needs of their region.

Rural Task Force and Small Urban Program assistance and Air Quality Conformity Planning are administered under a separate project authorization and funded with Statewide Planning and Research (SPR) grant funding. The funding requested for this assistance and planning is \$432,983 and has increased from last year due to the Pure Michigan Byways Program and Small Urban Call for Projects. As above, each regional planning agency may divide and prioritize their allocation of these work elements based on the transportation needs of their region.

Planning grant activities for the Byways Program are funded with SPR and administered under a separate project authorization. A more detailed Byways Work Plan and Budget will be required if an RPA budgets for byways administrative activities under the transportation planning services project authorization and/or applies for planning grant implementation activities under this planning grant activity SPR authorization. The byways work plans and budgets are submitted to the Byways Program Manager for review and SPR requests will be ranked and prioritized if funding availability exceeds requests.

The last activity, Asset Management, is administered by the Asset Management Section of MDOT under a separate project authorization.

This page intentionally blank.

Transportation Planning Services (MTF) Work Elements I - VIII

I. Program Management

Objectives

- Prepare and adopt annual work program.
- Prepare monthly or quarterly invoices and progress reports.
- Ensure expenditures are well documented and cost-effective.
- Prepare a Final Acceptance Report (FAR) on the status of the work activities and products within 90 days from the end of the fiscal year.
- Assist the auditors in carrying out general and specific audits of programs annually. Send such audit reports to the program coordinator.

Products

1. The following will be submitted to the program manager by the agency for reimbursement of costs incurred in conjunction with the work activities identified in the work program.
 - A. Progress reports that summarize accomplishments and attendance at applicable meetings for each work item.
 - B. Invoices for payment, submitted quarterly or monthly, in accordance with MDOT Contracting and Invoicing Standard Operating Procedures.
 - C. Receipts of travel expenses and equipment purchases greater than \$2,500; i.e., traffic counters, computer hardware and software, etc.
 - D. Itemization of program expenses in terms of work items, including salaries, fringe benefits, indirect costs, and other direct costs.
 - E. Tabulation of progress by work item, indicating the amount and percent billed the current billing period and year to date.

2. The FAR on the status of activities and products in the work program will be submitted to the program coordinator within 90 days following the contractual period in the work program, as specified within the Master Agreement. The FAR is a performance evaluation, not a financial audit, and must contain the following information for each work item:
 - A. Products completed.
 - B. Products not completed and reason for lack of completion.
 - C. The amount of funds budgeted and expended.
 - D. Work items that are to be continued next year.

Budget: \$4,000 (MTF)

II. Technical Assistance to MDOT

Objectives

- Assist in various tasks to update the State Long-Range Transportation Plan (SLRTP) and the State Transportation Improvement Program (STIP).
- Provide support for specific department issues and/or requests for information on transit, special projects and/or program development issues.

Activities

1. Assist in conducting transportation-related workshops and meetings, including but not limited to workshops and seminars for access management, State and National Byways, functional classification, the Adjusted Census Urban Boundary (ACUB), the Highway Performance Monitoring System (HPMS), the Model Inventory of Roadway Elements (MIRE), Fundamental Data Elements (FDE), and the Non Trunk line Federal Aid Program (NTFA) updates, non-motorized transportation, safety and non-metropolitan-area elected officials. Activities may include locating adequate facilities, registering participants, scheduling speakers, and other meeting management related activities.
2. Provide staffing and technical planning assistance in the area of transportation.
3. Conduct transportation studies as needed.
4. Assist in identifying transportation interest, programs and projects as appropriate for the STIP and the SLRTP.
 - A. Participate in the development and implementation of the SLRTP, providing input and review of documents and initiatives performed as part of the SLRTP development.
 - B. Assist in the scheduling and notifying of SLRTP related activities, including but not limited to public meetings within the region.
5. As appropriate, assist the MDOT Office of Passenger Transportation and local transit providers. Ensure that email distribution lists are updated with OPT and transit agency staff changes.
6. Statewide Travel Demand Model:
 - A. Review and provide feedback on REMI socio-economic forecasting outputs and assist in reviewing and allocating data to statewide traffic zones.
 - B. Verify statewide model network inventories.
 - C. Provide traffic counts, as available, for model update not covered in acquiring traffic counts for the non-trunkline federal aid program.

7. Data for meeting Federal Reporting Requirements:

A. Highway Performance Monitoring System (HPMS)

Collect and submit data items for HPMS in conjunction with MDOT's HPMS coordinator. Staff will review and update data on the HPMS sample segments using MDOT-supplied files that contain only the data items needing to be updated for each sample in the format provided.

B. Traffic Data Collection for Federal Reporting & 2026 MIRE FDE Requirement

Provide support to MDOT in the cross-agency coordination effort (NTFA) to gather and report traffic data on the non-MDOT road network (federal aid and non-federal aid) to meet federal reporting requirements of HPMS, MAP 21, and the BIL as well as the 2026 MIRE FDE Requirement of count-based AADTs on all public roads.

C. 2020 Census Statewide Review – NFC Review

MDOT staff will prepare informational materials for distribution pertaining to the 2020 Statewide NFC Review. MDOT will ask RPA staff to assist in meeting coordination with transportation stakeholders similar to the Urban Area adjustment meetings. These meetings will explain the process for transportation stakeholders to propose National Functional Classification (NFC) revisions to the Act 51 certified public roads within their planning boundary. MDOT staff may have suggested revisions. The process consists of traffic counts, worksheets, maps, local letters of concurrence, signed resolutions, and Act 51 certifications to process the proposed NFC revisions. The proposed revisions will be reviewed by MDOT staff. If MDOT is in concurrence, the proposals would then be submitted to FHWA for final approval.

D. Model Inventory of Roadway Element (MIRE) Fundamental Data Elements (FDE)

Model Inventory Roadway Elements (MIRE) Fundamental Data Elements (FDE) is a federal reporting requirement for safety roadway data under federal statute § 924.17. RPA and local agency participation in the MIRE data collection process is considered part of the requirements in fulfilling the Data Collection responsibilities to MDOT.

RPA's are asked to coordinate with their local agencies and MDOT staff to perform annual maintenance and validating (6) data items. The six (6) data items that local agencies and RPA staff will be requested to review will be: Surface type, number of through lanes, access control, median type, facility type, and traffic control.

The review of these data items will be done within Roadsoft. Deliverables to MDOT will be exported from Roadsoft. RPAs and Local Agencies that require additional training with Roadsoft MIRE tools can follow this hyperlink: [MIRE Roadsoft Training Recording](#) or contact MDOT at MDOT-MIRE-FDE@michigan.gov. Further information regarding statewide MIRE data collection can be found using the following hyperlinks:

- Roadsoft Roundup: [Model Inventory of Roadway Elements Fundamental Data Elements | Roadsoft](#)

- [MDOT MIRE FDE Experience Builder](#)

Support is defined as (but not limited to):

- Outreach
- Piloting
- Training and Education
- Data coordination with local agencies
- Data compilation
- Data load, transfer, and/or reporting
- Conduit between local agencies and MDOT/FHWA

Budget: \$8,000 (MTF)

This page intentionally blank.

III. Technical Assistance to Member Agencies

Objective

- Provide services to local transportation agencies to improve existing and new multi-modal transportation systems, and identify actions to improve the area's transportation system.

Activities

1. Assist local units of government in obtaining grant funds to improve existing and new multi-modal transportation systems and identify actions to improve the area's transportation system.
2. Assist local agencies seeking to improve and expand the public transportation and to promote improved transportation systems for all modes.
3. Coordinate planning to promote safety, livable communities and environmental sustainability.
4. Work with local agencies to assess impacts of transportation of projected land uses in the region.
5. Review and/or develop proficiency in traffic crash data.
6. Provide services, prepare, and report to regional boards and local agencies on the status of transportation planning work program activities and tasks.

Products

- Provide program manager with a copy of any reports produced as a result of these activities listed above.

Budget: \$9,000 (MTF)

This page intentionally blank.

IV. Public Involvement and Consultation Process for Non-Metropolitan Areas

Objectives

- To provide for non-metropolitan local official participation in the development of the State Long-Range Transportation Plan (LRTP) and the STIP.
- To provide opportunities for the public to review and comment in the development of the LRTP and STIP.
- To manage consultation with local elected officials, local officials with responsibility for transportation, public agencies, general public, tribal governments, businesses, and organizations in accordance with the statewide planning process public participation plan.

Activities

1. Work with MDOT on public involvement issues, including organizing meetings, focus groups and advisory committees.
2. Conduct local program meetings and ongoing communication and technical assistance in non-metropolitan areas to provide information on various state and federal programs.
3. Document the RTF's public involvement and consultation processes.
4. Partner with educating and training local officials with regard to state and federal-funded programs, policy applications and other key information.
5. Respond to requests from both the public and private sectors to provide information on state and federal transportation programs, projects, and funding, and to stay informed on local issues.
6. Participate in statewide conferences, meetings, seminars, forums and training sessions on state and federal programs available to local communities.
7. Assist MDOT in keeping elected public officials, general public, local planning agencies, and tribal governments informed early of the list of projects in the Five-Year Program and of the investment strategies, funding assumptions, economic benefits, and impacts on the various modes.
8. Notify local elected officials of the public comment period for the non-metropolitan consultation plan update and encourage their participation.
9. Assist in the creation and maintenance of an e-mail subscription list for managing the electronic distribution of information to local elected officials.

Budget: _____ \$3,500 _____ (MTF)

This page intentionally blank.

V. Access Management

Objective

- To develop and/or conduct access management training for local client communities. Assist MDOT selected consultants in preparing access management plans and ordinances along state roadway corridors.

Activities

1. Educate local public officials, property owners and citizens what access management is and how it can benefit their community.
2. Identify local roadway corridors of significance for the development of access management plans and prepare a formal justification to MDOT for funding such plans. A corridor of significance is defined as a principal and/or minor arterial that significantly impacts the state trunk line system.
3. Assist MDOT/consultant to ensure successful adoption of plans and ordinances. Assist road agencies, client communities and property owners, as required, when road and utility projects provide plan implementation opportunities. Provide follow-up consultation to communities with existing access management plans and ordinances.

Products

1. Educational materials provided by MDOT unless specified otherwise. Provide support to consultants conducting training, preparing corridor access management plans and ordinances along state roadway corridors.

Budget: _____ \$500 _____ (MTF)

This page intentionally blank.

VI. Pure Michigan Byway Program – Administrative Only

Objective

- Implement the Pure Michigan Byway Program for MDOT. Manage or assist in the management of designated state byways and/or National Scenic Byways within your region's geographical boundaries.

MTF Eligible Activities

1. Provide guidance to local grassroots organizations seeking to nominate a state highway as a Pure Michigan Byway or National Scenic Byway.
2. Serve as a liaison between MDOT and the local byway committee on issues relating to future transportation system improvements, or local land use and zoning changes proposed for and adjacent to the byway.
3. Provide opportunities for public involvement activities related to the byway.
4. Ensure the byway corridor management plan is up to date.
5. Conduct studies of the convenience of the byway transportation and visitor-oriented facilities.
6. Attend byways related conferences, workshops, and seminars (this is also an SPR eligible activity).
7. Assist in the management and facilitation of byways meetings.
8. Maintenance of existing byways websites.
9. Review and submit the Byway(s) Work Plan and Budget to MDOT by July 1, 2025 as completed by the byways committee.
10. Review and submit the Byway(s) Evaluation Report for the previous fiscal year by the end of December 2024.

MTF Eligible Products

1. Designation of Pure Michigan Byways and National Scenic Byways in accordance with P.A. 69 of 1993, as amended, and Title 23 U. S. Code.
2. Serve as Liaison between the byway committee and MDOT.
3. Provide MDOT digital and hard copies of updated and/or new corridor management plans.

Budget: _____ \$500 _____ (MTF)

This page intentionally blank.

VII. Non-motorized Mapping and Investment Plan

Objective

- Facilitate the process of completing non-motorized planning efforts for the State of Michigan by region.

Activities

1. Collect information to match the data fields in MDOT's Transportation Intermodal Management System (IMS).
2. Develop and implement aspects of a non-motorized investment plan to identify needed projects and project elements, prioritizing those projects, and determining the optimum funding arrangements for the projects within each region.
3. Promote the consideration of bicycle and pedestrian facilities in the overall transportation planning activities.
4. Coordinate with all engaged planning partners and the public.

Products

1. Non-motorized master plans by region, including up-to-date non-motorized maps.
2. The end map product will be a ready-to-print region-wide bike map and database with the support data to go into the TMS for future planning and maps. Provide MDOT with a copy of any reports (excluding grant applications) as a result of this activity, or a copy of cover letters for products submitted to others.
3. Print a six-to-seven-year supply of region road and trail guides (bike maps) for MDOT distribution, plus stakeholders within the region.
4. The development of a comprehensive plan and the identification of priority projects within the area will help guide MDOT's investment in the region's non-motorized transportation system.

Upon billing submittal:

- Progress reports that summarize accomplishments for each work item.
- Original invoice, consecutively numbered, stating period covered, dollar amount, and work performed.
- Itemizing of program expenses in terms of work items and cost groups, including charges to direct salaries, fringe benefits, indirect costs, and other direct costs.

Budget: \$2,500 (MTF)

This page intentionally blank.

VIII. Rural Safety Planning

Objectives

- Assist in conducting rural safety planning forums to increase or create awareness for safety, and encourage formation of cross-discipline safety partnerships at the local level and assist MDOT in the process of preparing rural safety plans.
- Determine areas of safety risks (i.e., behavioral, structural) and schedule workshops to educate constituents in mitigating these risks, if appropriate.

Activities

1. Conduct rural safety forums on a biannual basis. These forums will include emergency enforcement, education and engineering staff, as well as other interested parties. Schedule specific safety workshops in other years, if appropriate.
2. Update and maintain a list of safety advocates, including mailing labels.
3. Foster and maintain partnerships to promote safety as an integral part of the planning and project development process.
4. Maintain updated mailing lists identifying safety groups and individuals.
5. Assist MDOT in the process of preparing of rural safety plans.

Budget: \$3,000 (MTF)

This page intentionally blank.

RTF/Small Urban Program Assistance and Air Quality (SPR) Work Elements I - III

I. Management of the Rural Task Force and Small Urban Program

Objective

- To assist MDOT in administering the Rural Task Force (RTF) and Small Urban program for MDOT.

Activities

1. Regional Planning Agency staff shall communicate all MDOT correspondence to their respective RTF members.
2. Schedule, room setup (in-person or virtual), provide materials, take meeting minutes, collect a list of meeting attendees, and facilitate the logistics of the RTF project selection meetings and small urban program meetings. This duty can be coordinated with the Chairperson of the committees based on preference of the individual RTF or Small Urban committee.
3. The Regional Planning Agency and RTF Chairperson shall ensure a cooperative, coordinated, and comprehensive planning process is followed at the regional level. This process shall be consistent with approved federal planning regulations and provide for the consideration and implementation of projects that address all modes of transportation.
4. Ensure the required public involvement and consultation process is followed by providing citizens, affected public agencies, tribal governments, private transportation providers, and other interested parties with sufficient notice and opportunity to comment on proposed transportation projects, plans and programs.
5. Adopt the use of the Fiscal Constraint Sheet provided by the MDOT RTF Program Manager.
6. Ensure that the fiscal constraint sheets used in the meetings are properly managed with updated allocation balances provided by the MDOT RTF program manager as well as the decisions made by the RTF committees.
7. Program eligible projects in JobNet as approved by the RTF committees. Ensure that 1799 and 1797 data sheets received from the local agencies match what was approved by the RTF committees as reflected in the fiscal constraint sheet and attach those data sheets to the appropriate project in JobNet. This includes the programming of selected projects for the new STIP cycle FY2026-2029. For the Small Urban Program, the RPA will submit 2606 or 2638 forms to the Small Urban Program Manager. The Small Urban Program Manager is responsible for programming the selected projects in JobNet.

8. Submit proof of public involvement, meeting minutes, all season road changes, and the fiscal constraint sheet as part of monthly activity report utilizing the most current 1618 form to the MDOT RTF Manager. In months where there is no meetings or action taken by the committees the form should still be submitted with the “No Project Change or Meeting” box checked and submitted to the MDOT RTF Program Manager.
9. Review and monitor the Local Agency Balance Report (LABR) and update the fiscal constraint sheet with current project obligations on a monthly basis.
10. Attend monthly RTF virtual meetings and educational webinars virtually or in person or watch the posted recordings if unavailable for the meeting times.
11. Assist in the development of the new FY27-29 Small Urban Call for Projects where applicable, including coordinating and facilitating Small Urban Committee meetings.
12. RPA will submit the 2606 or 2638 forms that reflect the Small Urban committee’s prioritized projects to the Small Urban Program Manager. The Small Urban Program Manager is responsible for programming the selected projects in JobNet.

Budget: _____ \$16,793 _____ (SPR)

II. RTF/Small Urban Public Involvement and Consultation Process

Objectives

- To provide for non-metropolitan local official participation in the development of the SLRTP and the STIP.
- To provide opportunities for the public to review and comment in the development of the SLRTP and STIP.
- To manage consultation with local elected officials, local officials with responsibility for transportation, public agencies, general public, tribal governments, businesses, and organizations in accordance with the RTF and Small Urban's public participation process.

Activities

1. Document the RTF's public involvement and consultation processes.
2. Participate in statewide RTF and Small Urban related conferences, meetings, seminars, forums, and training sessions on state and federal programs available to local communities.
3. Assist in the creation and maintenance of an email subscription list for managing the electronic distribution of information to local elected officials.

Budget: _____ \$2,764 _____ (SPR)

This page intentionally blank.

III. Air Quality Conformity Planning*

Objectives

- To comply with federal and state transportation air quality regulations, specifically related to transportation conformity for non-attainment or maintenance areas or areas required to do conformity for ozone and particulate matter 2.5.
- To provide coordination and support of the Michigan Transportation Conformity Interagency Work Group (MITC-IAWG).
- To provide communication of air quality conformity analysis results or reports to all interested individuals and organizations.
- To provide inputs into the air quality conformity process and facilitate input from others.

Activities

1. Attend training to become familiar with the conformity regulations, and related air quality issues.
2. Participate in and or conduct meetings of the MITC-IAWG.
3. Participate in discussions to evaluate attainment strategies pertaining to transportation air quality for individual areas or as part of the statewide transportation planning process.
4. Communicate air quality conformity analysis results and initiatives to all interested individuals and organizations.

*** Only for Regional Planning Agencies with ozone or particulate matter 2.5 non-attainment or maintenance areas or areas required to do conformity within RPA boundaries.**

Budget: \$3,650 (SPR)

This page intentionally blank.

IV. Management of the Pure Michigan Byways Program

Objectives

- To assist MDOT in administering the Pure Michigan Byways program for MDOT.

Activities

1. Provide guidance to local grassroots organizations seeking to nominate a state highway as a Pure Michigan Byway or National Scenic Byway.
2. Serve as a liaison between MDOT and the local byway committee on all byway related topics, including issues relating to future transportation system improvements, or local land use and zoning changes proposed for and adjacent to the byway.
3. Provide/facilitate opportunities for public involvement activities related to the byway to ensure the required public involvement and consultation process is followed by providing citizens, affected public agencies, tribal governments, private transportation providers, and other interested parties with sufficient notice and opportunity to comment on proposed transportation projects, plans and programs.
4. Schedule, room set-up (in person or hybrid), provide materials, take meeting minutes, collect and inform the list of meeting attendees, and manage/facilitate the logistics of the Pure Michigan Byways program meetings. This duty can be coordinated with the chairperson of the committees based on preference of the individual byway committee.
5. The regional planning agency and byway committee chairperson shall ensure a cooperative, coordinated, and comprehensive planning process is followed throughout the byways planning.
6. Ensure the byway website & corridor management plan is up to date through consultation with the byway committee.
7. Facilitate/organize meetings and correspondence related to studies of the byway, including transportation and visitor-oriented facility convenience.
8. Attend byways related conferences, workshops, and seminars (this is also an SPR eligible activity).

Budget: \$750 (SPR)

This page intentionally blank.

Pure Michigan Byway Program (SPR) – Planning Grant Activity

Objective

- Implement the Pure Michigan Byway Program for MDOT. Manage or assist in the management of designated state byways and/or National Scenic Byways within the region's geographical boundaries.

SPR Eligible Activities

1. Conduct studies of the convenience of the byway transportation and visitor-oriented facilities.
2. Attend byways related conferences, workshops, and seminars.
3. Create and/or assist in creation, distribution, and printing of maps, brochures, pamphlets, and more for Marketing/promotional/educational activities.
4. Engage and/or assist a consultant in corridor economic development activities.
5. Website creation or grand scale updates (does not include maintenance costs).
6. Prepare and/or assist a consultant in the development or update of corridor management plans (CMP), including coordination with partners/programs as needed.
7. Facilitation and/or development of byway events/public involvement activities.

Budget: ____\$0____(SPR)

This page intentionally blank.

ASSET MANAGEMENT - MTF

The Transportation Asset Management Council (TAMC) approved this policy on March 6, 2024 as it relates to reimbursement of TAMC activities by the RPO/MPO to local agencies.

The resources allocated to the Metropolitan/Regional Planning Organization (MPO/RPO) from the Transportation Asset Management Council (TAMC) annual budget shall be utilized to assist in the completion of the TAMC Work Program. [All work shall be consistent with the policies and priorities established by the TAMC.](#) All invoices submitted for reimbursement of Asset Management activities shall utilize Michigan Department of Transportation (MDOT) standard invoice forms and include the required information for processing. The MPO/RPO shall complete the required products and perform tasks according to the timeframes and directives established within TAMC's data collection policies, which are located on the TAMC website (<http://www.michigan.gov/tamc>). The MPO/RPO will emphasize these tasks to support the largest PA 51 agencies (agencies that certify under Public Act (PA) 51 a minimum of 100 centerline miles of road) within the planning area when resources are limited. Reimbursement for data collection is provided from the fiscal year of which data was collected only. The fiscal year starts on October 1 and ends on September 30. The following are procedures and requirements in support of the TAMC:

Tasks

I. Training Activities:

- A. Attendance at TAMC sponsored training seminar(s) is a reimbursable expense for MPO/RPO and PA 51 agencies including:
 - Pavement Surface Evaluation and Rating (PASER)
 - Inventory-based Rating System for unpaved roadways and Culvert Asset Management.
 - Investment Reporting Tool (IRT)
 - Asset Management Plan Development
 - TAMC Conferences

II. Inventory and Condition Data Collection Participation and Coordination

A. Federal Aid (FA) System:

1. FA data collection is a reimbursable expense for MPO/RPO and PA 51 agencies.
2. Organize schedules with PA 51 agencies within MPO/RPO's boundary for participating in FA data collection efforts; ensure all participants of data collection have access to State of Michigan travel reimbursement rates.
3. Coordinate, participate and facilitate road surface data collection of the FA, per Act 51 agency, in accordance with the [TAMC Policy for the Collection of Roadway Condition Data](#).
4. The RPO/MPO will reimburse local agencies for FA data collection to PA 51 agencies.
5. Collect unpaved roadway condition data on approximately half of any unpaved FA eligible roadways using the Inventory Based Rating (IBR) System developed

by the Michigan Technological University's (MTU) Center for Technology and Training (CTT).

6. Consider FA and Non-federal Aid (NFA) data collection on approximately half of the road network together for efficiency in data collection. A best practice is to also collect data on both networks at the same time, reducing travel time and optimizing data collection.

B. Non-Federal Aid (NFA) System:

1. NFA data collection is a reimbursable expense for MPO/RPO and PA 51 agencies.
2. It is required that the RPO/MPO make a formal call for interest for NFA data collection reimbursements to their respective PA 51 agencies annually, and that requests by PA 51 agencies are submitted to their respective RPO/MPO by October 1 each year to assist in the coordination of data collection priorities of the following data collection season. The RPO/MPO will notify the PA 51 agencies of funding available and allocate reimbursements for NFA data collection to PA 51 agencies according to the resources and funding available in the manner that best reflects the priorities of their area and supports the TAMC work.
3. Coordinate NFA data collection cycles with PA 51 agencies with an emphasis on the top 123 agencies.
4. Collect unpaved NFA roadway condition data using the Inventory Based Rating (IBR) System developed by the MTU CTT.
5. Ensure all participants of data collection understand procedures for data sharing with TAMC as well as [TAMC Policy for the Collection of Roadway Condition Data](#).
6. Consider FA and NFA data collection on approximately half of the region road network together for efficiency in data collection. A best practice is to also collect data on both networks at the same time, reducing travel time and optimizing data collection.

C. Culvert Inventory and Condition Data Collection

1. Culvert inventory and condition data collection is a reimbursable expense for MPO/RPO and PA 51 agencies.
2. It is required that the RPO/MPO make a formal call for interest for culvert inventory and data collection reimbursements to their respective PA 51 agencies annually, and that requests by PA 51 agencies are submitted to their respective RPO/MPO by October 1 each year to assist in the coordination of data collection priorities of the following data collection season. The RPO/MPO will notify the PA 51 agencies of funding available and allocate reimbursements for culvert inventory and data collection to PA 51 agencies according to the resources and funding available in the manner that best reflects the priorities of their area and supports the TAMC work.
3. Coordinate culvert inventory and condition data collection cycles with PA 51 agencies with an emphasis on the top 123 agencies.
4. Ensure all participants of data collection understand procedures for data sharing with TAMC as well as [TAMC Policy for Collection of Culvert Inventory and Data Condition](#).

III. Equipment

- a. Ensure rating teams have the necessary tools to complete the FA data collection activity by maintaining a laptop compatible with the Laptop Data Collector and Roadsoft programs, a functioning Global Positioning System (GPS) unit, and other required hardware in good working order. For system requirements please visit [System Requirements | Roadsoft](#)
- b. Communicate any equipment needs and purchases with the MDOT Asset Management Section Manager; laptops are eligible for replacement on a three-year cycle only. Requests and invoices should include the year of the last purchase.
- c. Coordinate with your MDOT Transportation Service Center (TSC) Regional Pavement Engineer to secure an MDOT vehicle and/or request MDOT staff participation in the collection of FA road data.
- d. Ensure the vehicle includes reflective markings and flashing beacon. It is recommended that all rating crew members wear reflective safety vests.

IV. Data Submission

- a. Develop and maintain technical capability to manage regional Roadsoft databases and the Laptop Data Collector program; maintain a regional Roadsoft database that is accurate and consistent with local agency data sets.
- b. Coordinate Quality Assurance/Quality Control activities and data submission tasks according to protocols established in TAMC Data Collection Policies for Federal Aid and NFA Roads.
- c. Monitor and report status of data collection efforts to TAMC Coordinator through coordinator calls and/or program updates that are mailed with invoices.
- d. Provide links on agency websites and reports to the TAMC website, interactive maps, and dashboards for the dissemination of roadway data.

V. Technical Assistance

- a. Provide technical assistance to PA 51 agencies in using the TAMC reporting tools for planned and completed infrastructure investments or any other TAMC Work Program Activity.
- b. Provide assistance to PA 51 agencies in the development of their Asset Management Plans.
- c. Integrate PASER ratings and asset management into project prioritization criteria:
 - i. Analyze data and develop road preservation scenarios with an emphasis on a mix of fixes vs. worst first.

Invoicing

TAMC will require RPO/MPO to clarify and document invoices by each of the TAMC tasks listed below. The MDOT invoice form includes directions on how to fill out the invoice and what specific information is required on the invoice for it to be processed. The outline below includes the general activities that fit within each work task. Invoices which are insufficient will be returned to the RPO/MPO for correction prior to payment authorization. Invoices shall be submitted by the end of the MDOT fiscal year.

I. Training Activities: Please identify the training session(s) attended during the reporting period. Include travel/wages to and from sessions.

II. Data Collection

- A) **Data collected on FA Roads:** Attach daily work logs, include any applicable travel/wages, and include geographic area covered in the collection. Ensure data submitted to the TAMC.
- B) **Data collected on NFA Roads:** Attach daily work logs, include total miles rated at applicable rate as well as geographic area covered in the collection. Ensure data submitted to the TAMC.
- C) **Data Collection for Culverts:** Attach daily work logs, include total number of culverts inventoried and rated at applicable rate as well as geographic area covered in the collection. Ensure data submitted to the TAMC.

IV. Equipment & Vehicle Rental: Provide a list of equipment purchased and date of last purchase. Provide date of MDOT vehicle(s) rented and the reason for the rental.

V. Data Submission Activities: Include a detailed summary of activities related to managing regional Roadsoft databases and the Laptop Data Collector program, QA/QC of data from collection efforts, and activities related to submitting data files to TAMC via the Investment Reporting Tool application. Ensure all data collected with or without for the TAMC is submitted to the TAMC in a timely manner.

VI. Technical Assistance: Include a detailed summary of activities related to assistance provided to PA 51 agencies in using the TAMC reporting tools for planned and completed infrastructure investments or any other TAMC Work Program Activity.

Budget: \$50,650 (MTF)

PLANNING COMMISSION

RESOLUTION OF THE REGION 2 PLANNING COMMISSION

FY 2026 REGIONAL TRANSPORTATION PLANNING GRANT PROGRAM

WHEREAS, the Region 2 Planning Commission has engaged in the Regional Transportation Planning Grant Program in prior years, and;

WHEREAS, the Michigan Department of Transportation has been authorized to offer the Region 2 Planning Commission a grant of \$31,000 in Michigan Transportation Funds (MTF) and \$23,957 in Statewide Planning and Research (SPR) grant funds covering the period of October 1, 2025 to September 30, 2026, and;

WHEREAS, the Region 2 Planning Commission has prepared a program of work based upon its FY 2026 Regional Transportation Planning Work Program;

NOW, THEREFORE, BE IT RESOLVED, that the Region 2 Planning Commission hereby accepts the grant offer, and;

BE IT FURTHER RESOLVED, that the Region 2 Planning Commission hereby authorizes its Chairperson and Executive Director to execute a project agreement for the FY 2026 Regional Transportation Planning Grant Program.

PASSED, ADOPTED, and APPROVED this eighth day of May, 2025.

By:

Dale Witt, Chair
Region 2 Planning Commission

Jacob Hurt, Executive Director
Region 2 Planning Commission
